

## 2004 Project 3000 Grenache

Harvest Date: September 7, 2004

Bottling Date: August 24, 2006

500 cases produced

Vivid wild blueberry and blackberry flavors dominate coupled with awesome concentration and richness. The nose will entice you on and on with floral notes that jump out of the glass with a touch of licorice and herb. Tannins are firm and add to the full body and all around power of the vintage. Spring frost and a stressful mountain environment led to small yields of 2 and a half tons per acre and subsequently an intensely flavored Grenache.

Time in the glass shows the delicate nuances of the varietal as the tannins soften. This is our second vintage from the Fore Family Vineyard at 3,000 ft in Lake County's Red Hills Appellation.
